

FOR IMMEDIATE RELEASE

New DMK Skin Product – Epitoxyl 60ml

DMK Skin Co is delighted to announce the arrival of new product Epitoxyl;
a 3-minute detoxifying skin cleansing tonic.

Epitoxyl is a detoxifying skin cleansing tonic. The natural sea salt contained in Epitoxyl draws impurities and toxins out of the skin, removing free radical causing pollutants from the epidermal layers. Although Epitoxyl itself is odourless, strong odours may occur when applied to unhealthy or toxic skin, due to the vaporizing action. The odour will soon disappear upon rinsing.

FOR IMMEDIATE RELEASE

Key Ingredients:

Kappaphycus Alvarezii Extract - contains 18 Amino Acids with Lysine as a major cell building component.

Maris Sal (Sea Salt) – A drawing agent that allow toxins to rise to the surface of the skin.

Macrocystis Pyrifera Extract (Kelp) – A rich source of minerals and potassium that helps prevent infection and stops bleeding from skin eruptions.

Potassium Sulfite – A vaporizing agent that converts impurities to a gas.

How to Use:

Apply Epitoxyl to cleansed, dry skin using a gauze. Wait 3 minutes then rinse with cool water. A strong odour indicates a high level of impurities being drawn out from the skin. Epitoxyl replaces Dermatox.
